H&W Manufacturing

CNC Machine Shop

Specializing in small-medium sized components

Hassle-Free

Flexible ordering and delivery terms

Industry Experts

Exceptional service and delivery since 1978

Quality Guaranteed

Majority of our customers are ship-to-stock

Why choose H&W Manufacturing?

Our team is committed to providing the highest quality products to our customers, on-schedule and within budget. Our family-owned machine shop has thrived for nearly 40 years because of our commitment to delivering exceptional customer service. We are price competitive for both fast-turn-around small runs or long-term, high volume supply based on your needs. We produce and deliver products according to your business model, not the other way around.

People and Experience

Our manufacturing professionals have the expertise to thoroughly understand technical requirements, while also providing quotes that are consistent and price competitive.

Our shop experiences very low turn-over rates, so our people are well-trained in our processes. Whether you need simple or intricate parts, our team has the skills to meet your specifications and produce your parts cost-effectively.

Quality and Delivery

Our organizational quality commitment is to deliver products on-time and defect free, every time. We provide reliable lead times and on-time or expedited deliveries.

H&W has experienced machinists, precise and reliable equipment, and a commitment to our customers that ensures the delivery of high quality finished products built to specifications.

We have a wide range of machining capabilities and complementary services, which provides our customers turn-key solutions for their supply chain needs. We also have experience working with a variety of materials.
